# SIN HENG CHAN (MALAYA) BERHAD (4690-V) (Incorporated in Malaysia)

#### INTERIM REPORT FOR THE SECOND QUARTER ENDED 30 JUNE 2013

#### NOTES TO THE INTERIM FINANCIAL REPORT

#### A1 Basis of preparation

The interim financial statements are unaudited and have been prepared in accordance with the requirements of FRS 134: Interim Financial Reporting and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad.

The financial statements should be read in conjunction with the audited financial statements of the Group for the financial year ended 31 December 2012. These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 December 2012.

The accounting policies and methods of computation used in the preparation of the interim financial statements are consistent with those used in the preparation of the last audited financial statements for the financial year ended 31 December 2012.

On 19 November 2011, the MASB issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards Framework ("MFRS Framework") in conjunction with its planned convergence of FRSs with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board on 1 January 2012.

The MFRS Framework is a fully IFRS-compliant framework, equivalent to IFRSs which is mandatory for adoption by all Entities Other than Private Entities for annual periods beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141 Agriculture and IC Interpretation 15 Agreements for Construction of Real Estate, including its parent, significant investor and venture (hereinafter called "Transitioning Entities").

Transitioning Entities will be allowed to defer adoption of the new MFRS Framework for an additional two years. Consequently, adoption of the MFRS Framework by Transitioning Entities will be mandatory for annual periods beginning on or after 1 January 2014.

The Company falls within the scope definition of Transitioning Entities and accordingly, will be required to prepare financial statements using the MFRS Framework in its first MFRS financial statements for the year ending 31 December 2014. In presenting its first MFRS financial statements, the Company may be required to restate the comparative financial statements to amounts reflecting the application of the MFRS Framework. The majority of the adjustments required on transition (if any), will be made retrospectively, against opening retained profits.

#### A2 Audit report

The auditors' report on the financial statement for the year ended 31 December 2012 was not qualified.

### A3 Seasonal or cyclical factors of the Group's operations

The prices for the Group's products are not within the control of the Group but are determined by the global supply and demand situation for edible oils, and it is somewhat related to the price of mineral oil.

Crop production is seasonal. Based on statistics, the Group's production of crude palm oil and palm kernel gradually increases in second quarter, reaches its peak during third quarter and decreases thereafter. This pattern can be affected by severe global weather conditions such as El-Nino.

The prices obtainable for the Group's products as well as the volume of production, which is cyclical in nature, will determine the profits for the Group.

#### A4 Unusual items

There were no items affecting assets, liabilities, equity, net income, or cash flows that are unusual because of their nature, size, or incidence in the current quarter.

#### A5 Changes in estimates

There were no changes in estimates of amounts reported in prior interim periods or changes in estimates of amounts reported in prior financial years, which have a material effect in the current quarter.

### A6 Debt and Equity Securities

There were no issuances, cancellations, repurchases, resale and repayments of debt and equity securities for the current quarter.

### A7 Dividend

There was no dividend paid, declared or proposed in the current quarter.

#### A8 Segmental analysis

The Group is organised into the following operating divisions:

- (i) Oil Palm Plantations
- (ii) Plantation Management
- (iii) Investment Holding
- (iv) Others (consist of subsidiary companies which are dormant and pre-operating)

Inter-segment sales are charged at cost plus a percentage profit mark-up.

## ADDITIONAL INFORMATION REQUIRED BY THE BURSAMALAYSIA SECURITIES BERHAD'S LISTING REQUIREMENTS

#### B1 Review of Performance

#### Revenue

The Group registered revenue of RM3.35 million and RM6.93 million respectively for the current quarter and cumulative year to date ended 30 June 2013 compared to RM6.11 million and RM11.32 million of preceding year's quarter and cumulative year to date ended 30 June 2012.

The Group's revenue for the current quarter ended 30 June 2013 decreased by 45.2% compared to the preceding year quarter ended 30 June 2012 due to the drop in the average CPO price by 27.8% and production by 21.74%. The decrease in production was partly contributed by a fire that destroyed the harvester quarters on 3 May 2013.

#### Profit before tax

Similarly, the profit before tax for the current quarter decreased from RM1.11 million to a loss before tax of RM1.36 million compared to the preceding year quarter.

## B2 Material Changes in Profit Before Taxation for the Quarter Reported On As Compared with the Immediate Preceding Quarter

The Group recorded a loss before tax of RM1.36 million for the second quarter ended 30 June 2013 as compared to a loss before tax of RM1.98 million from the preceding quarter ended 31 March 2013. This is mainly due to the decrease in production of FFB and lower CPO price.

#### B3 Current Year Prospects

The uncertain global economic environment and possible easing of demand for Crude Palm Oil ("CPO") in the overseas market for the current financial year may have an impact on the CPO prices. The fall in CPO inventory level in the recent months is not expected to help lift the CPO prices because there is plenty of soya bean oil, a close substitute of CPO, which will enter the edible market in the third quarter this year.

Nevertheless, the plantation division has projected an increase in FFB yield and higher degree of operation efficiency to mitigate the impact of lower CPO prices.

#### B4 Profit Forecast or Profit Guarantee

The Group has not issued any profit forecasts for the quarter under review.

## B8 Material litigation

The Group is not engaged in any material litigation and is not aware of any proceedings which might materially affect the Group for the current financial year.

### B9 Dividends

No interim dividend has been paid, declared or proposed for the period ending 30 June 2013.

#### B10 Off balance sheet financial instruments

There were no financial instruments with off balance sheet risk at the date of the issue of this quarterly report.

### B11 Earnings per Share (EPS)

Basic EPS is calculated by dividing the loss attributable to the ordinary equity holders of the parent company of RM1,359 and RM3,267 for the current quarter and current cumulative quarter by the weighted average number of ordinary shares of 111,666,787 in issue during the period.

Diluted EPS is calculated by dividing loss attributable to the ordinary equity holders of the parent company of RM RM1,359 and RM3,267 for the current quarter and the current cumulative quarter by the weighted average number of ordinary shares of 118,227,787 in issue during the period.

## B12 Gains/(losses) arising from fair value changes of financial liabilities
