

**UPDATE ON COMMUNITY ENGAGEMENTS WITH SARAWAK IBAN DAYAK
ASSOCIATION (SADIA) AT LONG URUN**

(GRIEVANCE UPDATE NO: UPSB/01/03)

Date: 22 May 2026

As part of the ongoing efforts, a community engagement team from SADIA was deployed to facilitate dialogue and fact-finding with affected stakeholders. From 27 to 28 February 2026, the SADIA team engaged key stakeholders in Miri and supporting NGOs.

This was followed by a field visit to Urun Plantations Sdn. Bhd. (UPSB) from 1 to 4 March 2026, which SADIA attended together with third party consultants appointed by UPSB, focusing on establishing contact and understanding community dynamics. A further meeting with community members was held in Bintulu on 17 March 2026.

From 27 March to 2 April 2026, SADIA carried out briefings with the complainants and community members on community participatory mapping and physical land surveys.

Three additional visits have been carried out in the month of May 2026 to finalise the community mapping survey. The next step is to develop a holistic overview of the areas to be conserved under the co-management arrangement, as well as to achieve amicable resolutions of individual personal claims within the area.

The engagement process remains ongoing, and the Group will continue to provide updates on subsequent developments and key outcomes.
